

Quaerens Ltd - Company Overview

Prepared as supporting evidence for the Global Business Awards 2026 nomination.

Clear support when complaints get complicated.

Quaerens Ltd helps consumers organise evidence, understand dispute routes, and prepare clearer complaint or assessment documents before taking the next step.

What Quaerens Provides

Quaerens is an evidence-led consumer dispute support company. We assist clients who feel overwhelmed by rejected complaints, delayed refunds, unclear responses, or complex claims. Our team reviews the information available, identifies strengths and evidence gaps, and prepares practical next steps in plain English.

Property and home improvement

Spray foam insulation, new build issues, housing disrepair, sale and rent back, and equity release concerns.

Finance and regulated routes

Car finance, pension issues, Section 75 credit card support, APP fraud and bank scam refund complaints.

Travel and leisure

Holiday park, caravan, timeshare, flight, travel, cruise, luggage and other travel-related disputes.

General consumer complaints

Practical support where documents, complaint history and clear timelines can improve the route forward.

Evidence-Led Process

1. Initial Review

The client shares a summary, key dates, documents and any replies already received.

2. Evidence Assessment

We organise the facts, identify missing evidence and assess the likely route forward.

3. Clear Next Steps

We prepare clearer complaint wording, assessment reports or handover packs where appropriate.

Free Assessment and Report Approach

Quaerens offers a free, no-obligation initial assessment route for non-DIY matters. Where suitable, clients can receive an assessment report that explains the issue, the documents reviewed, the apparent strengths and weaknesses, and the next recommended step. Paid support is only discussed where it appears genuinely useful and is explained clearly in advance.

Recent Outcome Example

As part of Quaerens' wider dispute support model, one recent consumer matter resulted in a settlement offer materially above the client's original expectation. The client had expected a recovery in the region of GBP 20,000; the final settlement offer exceeded GBP 25,000, demonstrating the value of clear evidence review, structured complaint preparation and persistent case support.

Legal and Partner Routes

Quaerens is not a law firm. We specialise in practical dispute support, evidence organisation and complaint preparation. Where a matter requires formal legal action, regulated claims handling or specialist representation, suitable cases can be referred to appropriate legal or authorised partners.
